

Why Satellite?

Do you enjoy Facebook, emailing with friends, or reading Nacion.com, but ICE doesn't provide service in your area? Now you can get high speed Internet access without having to go to the cafe.

Satellite broadband Internet is a wonderful choice when landlines such as DSL or Cable are unavailable. And unlike other Satellite offerings, TicoSat is designed to ensure your home or office is "always on" the Internet.

How Old is TicoSat?

Our Founder has been enjoying quality satellite internet service in Costa Rica for over five years. He enjoyed the freedom of satellite, and the high quality of VoIP amazed him. Soon, friends wanted a system, too; and before long, everyone wanted one.

Born long before NAFTA, CAFTA and SUTEL, TicoSat is a true pioneer in the satellite internet business here in Costa Rica.

Business Ready?

True IP Data. High speed access. Rain fade almost nonexistent. Great VoIP. Guaranteed speeds from 512k/96k to 1.5MB/384k.

iPura Vida!

It's a beautiful world, the flowers are blooming, birds are chirping and the breeze is blowing. We love the spirit of community in Costa Rica. And you'll love the spirit of TicoSat.

New Pricing

To give you the best offer available in Costa Rica, TicoSat has lowered the equipment price for 3 watt plans to \$2,000. And you'll still enjoy the low monthly rates of \$99 to \$249.
